

The timeless charm of porcelain meets the boundless world of Creative-Cables.

Diverters, sockets, junction boxes, lampholders and ceiling roses: fun, unique products to upgrade your electrical systems from ordinary to extraordinary.

creative cables

Turn your wall mounted electrical installations into vintage accessories **has never been easier.**

PORCELAIN COMPONENTS

Smooth, dazzling, refined.

Porcelain is the undisputed queen in the field of interior design and decor with its material's unsullied elegance and technical qualities.

So it only felt natural to design a collection of stunning and high quality porcelain components to spruce up your electrical installations whilst avoiding invasive adjustments to your walls.

Modular, ready-to-use components with optimal isolating qualities and mechanical resistance come together to create a colourful, bubbly wall mounted electrical system where past and present blend perfectly.

PORCELAIN SWITCHES

Knob or butterfly nut? Both Creative-Cables designed porcelain electric switches add vintage allure to any external wall system. On top of being functional, this component also constitutes a decorative element that enhances the decor whilst adding a pop of colour: you'll also be able to choose from a wide range of colours to either complement the room or create a fun contrast.

Material: **Porcelain** CE
 Rated voltage/current: **250V/16A**
 Frequency: **50-60 Hz**
 Connection type: **Screw clamp**
